Mrs. Bartholomew gos her down to see me, and she has been ever (since at her house, when ahe first came to my rooms, she was much emaciated with a distressing cough, spitting large quantities of blood. I examined her lungs with the respirometer, and in all my practice never found one with one long so are gone and the other lung so acound. I could not give much encouragement, I thought she would die; but to my great actonishment the Pulmonic Syrup. Seaweed Tonic and Mandrake Pills all seemed to go right to work, the lung is all healed over, leaving a cavity as large as a goose egg. Good appetite, fine spirits, and has gained some threy-dive pounds in weight. She has some cough yet, which I do not think will leave her before done. I should think it would be of great interest to some unprejudiced physician to visit these cases, particularly Mrs. Scofield, or any of them who have been circed by my medicines. They are numerous in New York; but the above three all differ from each other; and it my medicines are doing what I represent they are, they should have the credit and the afflicted to know where and how they may be cured.

In case of asthma use Dr. Wishart's Dyspersia Pills with the Cordial, as they have never been known to fail to cure that disease.
